COMSC-031-9545 Web Site Development – Part 2
Fall 2014

Part-Time Instructor: Joenil Mistal

Available Hours: Schedule by appointment
E-mail: jmistal@losmedanos.edu
Phone: (925) 294-7193

Textbook and Supplies: Teach Yourself Visually Adobe Dreamweaver CS5 by Janine Warner
ISBM: 978-0-470-61262-0

Course Resources: http://www.31.jmistal.com http://www.w3schools.com

Class Schedule: Thursday 7:00PM – 10:15PM
Brentwood Campus, Room 9
10/23/14 – 12/11/14
1.5 units

Course Description:
This course provides an introduction to Web site development. The course uses a workshop approach, illustrating key features with practical hands-on examples. Throughout the course, students will be exposed to the planning phase of developing a Web site which will include defining the goals and objectives of the site, identifying the audience, organizing and gathering the content, defining the site's look and feel, and mapping out the organization structure, navigation and links for the site.

Students will be using Adobe Dreamweaver to design and create a Web site. You will learn how to organize and insert content including text, images, multimedia, hyperlinks, tables, frames and forms on a Web page. You will also learn how to apply cascading style sheets when designing a Web site. Lastly, the course will also cover registering a domain name, choosing a host service, and publishing a Web site. Students will create a Web site for business, educational, or personal use. This course is half semester class and is required for the completion of the Web Page Development Certificate.

Statement of Course Objectives:
Upon satisfactory completion of this course you will be able to:
1. Apply the various design techniques in creating Web pages using Adobe Dreamweaver.
2. Have a thorough understanding of organizing and laying out the content on a Web page.
3. Identify the steps in planning, designing and implementing a Web site.
4. Demonstrate knowledge of the topics through the completion of lab assignments and course project

Course Requirements:
1. Class meets 3 hours a week and the student is expected to attend all class meetings. Attendance will be taken each class. A total of three absences maximum are allowed. In addition, 1 hour of lab time will be required each week to complete lab assignments during class hours.

2. The work for the course consists of the following:

a. 10 Lab Assignments @ 30 points ea.	300
b. Project- Web site	100
c. Final Exam	100
Total:	**500 points**

3. Class grade will be computed as follows:
   450 - 500 points = A
   400 - 449 points = B
   350 - 399 points = C
   300 - 349 points = D
   less than 300 = F
